FAIRPLAY

Dear Coaches & Managers,

We as an association have had many issues in the past with what is considered to be fairplay. Our definition of fairplay is as follows:

If a player shows dedication and commitment o the team they are to be played equally to other players, regardless of skill level. In common English, "If the player shows up and participates in practice, they have earned the right to play".

If you are having attitude issues on the pitch, this is something that needs to go straight to the parents. If a problem persists, we as an executive are more than willing to address the situation.

Thank-you for your dedication!

Jose Teixeira

BSA President
